Policy mix for metals and other materials

Tomas Ekvall
IVL Swedish Environmental Research Institute

DYNAMIX Webinar, October 28th 2015:
Results from the resource efficiency policy mix assessment
Grand challenges for implementation
POLICY-MIX TARGETS

• Virgin metals use: -80%

• Minimize burden-shifting
POLICY OBJECTIVES

• Increase recycling

• Increase material efficiency

• Substitute metals for other materials - where appropriate
POLICY MIX FOR METALS AND OTHER MATERIALS

Tax on materials used in the EU
Technical requirements
Extended producer responsibility

Environmental taxes
Support to sharing systems
Removal of harmful subsidies
Advanced recycling centres

Research & development
Fora for communication
EU strategy for dematerialisation
Education programmes
Information campaigns
POLICY MIX FOR METALS AND OTHER MATERIALS
A Dynamic Policy Mix

Environmental taxes
Materials tax
Labour taxes
Supporting instruments

DYNAMIX
Decoupling growth from resource use and environmental impacts
Thank you!
