

Flash input from policy perspective on policy mixes: Changes needed and feasibility of these changes

DYNAMIX/POLFREE Final Conference

François Wakenhut
DG Environment, HoU F.1

15 Feb 2016

Design of realistic policy mixes

- Need to listen to stakeholders in the elaboration of policies
- Take into account the social and economic impacts in order not to alienate a particular group of stakeholders
- From an EU perspective, guide Member States in the transition and offer support such as for a to share best practices
